

Certified to issue the full range of Card Media Platforms specified by ITSO

With an exceptional track record of servicing high profile local and national Smartcard schemes ESP Systemx are Europe's leading provider of independent smartcard personalisation, encoding services and card issuing systems for mass transit and multi-application citizen card projects.

Our six service bureaus have a combined capacity to issue in excess of 750,000 smartcards per week and we have distributed over 5 million ITSO cards for the English & Welsh National Concessionary Travel Schemes as well as 1.5 million cards for Scotland's National Entitlement Card Scheme.

We hold the most comprehensive certification for all ITSO smartcard platforms and products and our Quality Management Systems are accredited to ISO 9001:2000 standards. All of our project managers are Prince2 qualified practitioners and our operational staff are CRB checked.

With 130 ITSO Card Issuing Systems already installed at 40 customer sites we are ideally placed to satisfy the requirements of Local Authorities, Passenger Transport Executives and Rail Operators in meeting the demanding objectives of Transport and Citizen Smartcard schemes.

At ESP we strive to ensure our prices represent the very best value for money in terms of service, quality and low-risk, but it is inevitable that competitors will occasionally offer better prices to win business in the short-term.

Based upon our consistent and sustainable business model we guarantee to better any like-for-like offer, promotional or otherwise.
